

Additional conditions

All uploads, photos, graphics, textfiles, comments etc. Must be related to astronomy, or the album description. This site is not a place for Astrology.

Please comment photos, and give ratings. This will make this gallery more alive and dynamic, and not "just" another gallery with nice photos. It is also fun to get critique from other parts of our world, and see what happens there (and comment it). Please comment other users photos, in a friendly and serious tone.

(that means humour is not prohibited) ☺

Use english language in comments etc.

© Beside one album (Not my own) you must hold the copyright to all your uploads. If you upload photos to the album "Unfinished projects", you accept that other users can make versions of these photos, and upload them in the album "Not my own". Otherwise upload only to the album "Not my own" with permission from the author. You must accept that all photos can be used in the E-postcard function. It is not allowed to use any photos for any other reasons, without the authors permission.

Your username must be personal, something like your real name, or a variation of that. If not, then please type your name in the namefield.

Please fill in your country. (Required)

The field "Biography" is optional, but we would like to read a little about you.

Carefully fill in data and keywords, use the keywordlist.

Please upload text in PDF-format, doc, txt, pdf, zip can be used.

Please upload photos in jpg-format, other formats can be used.

The album "Sell buy" is only for astrorelated stuff.

Dealers can use the album, but only for used equipment.

Name, adress and e-mail is a must. Remove old uploads. The administration of the site, has nothing to do with users buying and selling stuff, and cannot be held responsible for anything related to that.

I suggest that you dig down in your astrophoto archives, and upload a wide representation of your work. Choose your best photos from every year, and link them to the relevant albums (best2008, best2007 etc.) see the keywordlist.

Please encourage kids to upload their own astrophotos in "Kids Category", help them if they need it.

Please notify admin@astrophoto.dk about users that do not follow the conditions.

☺ HAVE FUN WITH ASTROPHOTO.DK/GALLERY 

/Jesper.
